Studio

005

2

The new flagship space part of the XPLOr research and innovation hub, Studio 005 will play an integral part in driving the live experience and entertainment industry forward.

The space includes large scale design/prototype spaces, multi-use workshops, pre-visualisation suites and a 1,317 sqm studio with a rigging beam height of 20m.

Area: 1,317 sq m (14,175 sq ft)

Length: 41m (135ft)

Width: 32m (105ft)

Height: 22m (72ft) roof height
20.2m (66ft) rigging beam height
18m (60ft) to underside of gantry

Power & Heating: 3 distribution boards split across the arena carrying 1660A 3-phase power

Full coverage underfloor heating

Roof Capacity: Safe Working Load (SWL): 500 Tonne UDL
10 beams with 50T capacity

Power: 4 x 400A 3-phase Powerlock
6 x 125A 3-phase
9 x 63A 3-phase
9 x 32A 3-phase

- Walkable grid
- 18m (59.5ft) to the underside of the grid
- 20m (65.6ft) Rigging beam height
- Safe Working Load (SWL): 500 Tonne UDL
- 10 beams (50T capacity per beam)

Rigging Area – 31m / 101ft x 40m / 131ft

Each beam has a maximum uniformly distributed load (UDL) of 50T totalling up to 500T across the entire building. This capacity is subject to the proposed rigging arrangement, load distribution, orientation, and other production-specific factors.

Every production must be assessed on an individual basis, and a detailed rigging plot must be submitted for analysis and review. To allow sufficient time for review and approval, final rigging plots must be submitted no later than seven (7) days prior to the commencement of load-in. Where referral to our appointed structural engineers is required to verify the proposed loading, the associated engineering assessment costs will be chargeable to the client.

Productions involving heavier shows, concentrated loads, or particularly complex rigging arrangements should submit their rigging plots as early as possible to allow adequate time for analysis and referral for structural engineering assessment and any required revisions.

Failure to meet the submission deadline may result in insufficient time for engineering approval, which could delay sign-off of the rigging design and consequently impact the scheduled load-in.

G

Ground Floor:

The Ground floor of Studio 005 is primarily the home of Production Park. Our R&D team is located in the Workshop and love to jump in and help out on problem solving should you need them. The bright, airy atrium connects the reception and studio office foyer to the rest of the campus and the bar eatery. Special arrangements can be made for building lock outs.

More Studios

Studio 001

Studio 001 was the first purpose-built production rehearsal facility in Europe. It's where some of the world's biggest artists, brands and shows come to rehearse, film and create.

Area:	1,641 sq m (17,664 sq ft)
Width:	39m (128ft)
Length:	42m (138ft)
Height:	16.5m (54ft) underside of gantry 18.2m (60ft) rigging beam height 19.8m (65ft) maximum working height
Power:	1200A 3-phase 2 x 400A powerlock 4 x 125A 3 x 63A 3 x 32A 16A (single phase)
Capacity:	400

Studio 002/003

Black box space in the centre of the park used for green screen projects, break out, rehearsals and filming.

Area:	314.5 sq m (1030 sq ft)
Width:	18.5m (60.9ft)
Length:	17m (55.7ft)
Height:	Max trim 7.7m (25ft) Max clearance 9m (29ft)
Power:	4 x 63A 3-phase 4 x 32A 3-phase
Capacity:	500 combined

Studio 004

Centre for Virtual Production.
XR studio with LED video wall by ROE Visual, Unreal Engine environments and Disguise media servers.

Area:	627.15 sq m (2057 sq ft)
Width:	18.5m (60.9ft)
Length:	33.9m (111ft)
Height:	Max trim 7.7m (25ft) Max clearance 9m (29ft)
Power:	4 x 63A 3-phase 4 x 32A 3-phase
Capacity:	50
Other	LED virtual Production Stage featuring ROE ruby 2.3mm

Studio 006

Studio 006 boasts private access and is ideal for large band rehearsals, smaller productions, training and project R&D and realisation.

Area:	338 sq m (3638 sq ft)
Width:	13.05m (42.81ft)
Length:	26m (85.3ft)
Height:	Max 6m (19.68ft)
Power:	2 x 63A 3-phase 1 x 32A 3-phase
Capacity:	100

The Mill

The Mill London is a Versatile space in Wimbledon for rehearsals, concerts, events, filming and photoshoots.

Area:	429 sq m (4618 sq ft)
Width:	12m (40.2ft)
Length:	33m (108ft)
Height:	6m (19.68ft)
Power:	300A 3-powerlock 1 x 125A 3-phase 1 x 63A 3-phase 2 x 32A 3-phase
Capacity:	400
